Florence S. and Laura S. Norman Professor of Public Health
Professor of African and African American Studies and of Sociology

Statement of Support

It has been my privilege to work with Ginn Fourie since 1998. I have been very impressed with and wholeheartedly endorse the work of the Lyndi Fourie Foundation. Ginn Fourie and Letlapa Mphahlele adhere to the highest standards of honesty and integrity and I have found them to be absolutely trustworthy.

Ginn Fourie and Letlapa Mphahlele's demonstrated leadership in encouraging advocacy and empowerment and providing practical tools to enhance the quality of life of disadvantaged populations is evident in their planned conference for 2014. The range of presentations, workshops and speakers planned for this historic gathering will ensure that it will be a memorable, world-class event. It is likely to play a vital role in stimulating a new vision of sustainability, empowerment and integrity in South Africa and beyond.
